

# SANGHAMITRA SCHOOL

**JAI GANESHA ..... JAI JAI GANESHA**

To celebrate the festival Ganesh Chaturthi and share its significance, an assembly presentation was given by class VI students on September 10<sup>th</sup>.

The program started with Radhika teacher welcoming the audience and inviting class VI students to the stage. The prayer song gave a good start to the program. Ganesh Chaturthi is celebrated with great enthusiasm and devotion and holds a deep significance in Indian culture. Lord Ganesha is revered as Vignaharta as the resolver of obstacles and the god of new beginnings.

It was time for a poem in the praise of the elephant god. A treat awaited the audience when young girls dressed in their traditional best enthralled them with their classical dance.

Students spoke about the eco-friendly practices that we can follow during this festival. Firstly, we must all use Eco-friendly Idols, use sustainable toran and wall hangings, use natural colours, Reuse and recycle material and generate less waste, and use natural water bodies for eco-friendly visarjan. Avoid plastic and artificial colours.

We then had a skit by students where they shared important life lessons. Lord Ganesha is not only the lord of the beginnings and remover of obstacles but also a teacher. His anecdotes form an important part of Hindu mythology. Some life lessons that we can learn are

1. Duty is above all else.
2. Nobody is more important than one's parents.
3. You should finish every task that you take up.
4. Always stand up for your self-respect.

The finale included an energetic display of emotions through dance and class VI boys danced energetically to bid goodbye to the elephant god.

Overseeing the entire program was our own Lord Ganesh on his vehicle Mooshika blessing the students.

Let us all unite in our efforts to make Ganesh Chaturthi a vibrant and eco conscious celebration for the generation to come.
